At other communities, healthy residents often subsidize the cost of care for others through higher monthly fees. At Beaumont, we strive for balance and offer residents 183 days (six months) in Personal Care or the Health Center at no additional cost. If your stay is billed to Medicare, no days are deducted. Once the 183 days have been used up, residents will only be charged 50% of the actual cost of care for skilled nursing – which is \$235 per day in 2023.

Should a resident move to Personal Care or the Health Center permanently, they can sell their villa or apartment at any time and use the proceeds to offset the cost of care. At other communities, you can't sell or move, and only the refundable portion of your entrance fee would be returned to your estate.
